

What To Expect & How to Prepare for Your Classic Wardrobe Edit

Get excited because you have taken the first steps to re-creating your personal image and your life is about to change. Your entire wardrobe is about to be re-created into something that is functional for you and your lifestyle and will bring a smile to your face each and every time you get ready.

What You Can Expect

The Classic Edit takes your already existing wardrobe and transforms it into something better. An in home detailed interview begins this service in which your specific needs will be discussed. Following the interview, your closet will be assessed and piece by piece each item tried on and evaluated. Garments will be kept, altered, discarded or stored so that you can reclaim your closet.

By the end of this service, you will have a fully functional wardrobe with re-discovered pieces and items that fit you properly, professionally styled and coordinated outfits made from your existing closet and a customized shopping list.

Need more details? Here is a step by step of the process

1. Stylist comes to your home at the scheduled appointment time, have a little meet and greet and the interview begins. It's not a stressful interview – just a few questions that will assist with the direction of the edit and to get to know you, your lifestyle and personal styling choices. Be sure to communicate any concerns or difficulties you are having with your wardrobe. The more information given, the better the understanding of your needs. You will be asked questions like, "What is your profession and how do you need to be dressed for the workplace", or "What is a typical day like for you, and "Have you encountered any difficulties in dressing your body?" Detailed measurements of your body will also be taken which can be used as a reference for online shopping.
2. We will then go through all of the items from your closet, try on and evaluate whether they are continuing to serve you and what can be done if they are not. This is where the piles start – there will be a pile for keeps, a pile for donation, one for consignment, one for storage (out of season clothing) and another for clothing that needs to be altered. Altering a garment improves the fit and function of it and allows for a better fit to your body. If a garment needs to be altered in any way – hemming, taking in at the waist, bringing up the shoulders, etc – the pinning will be expertly completed on the spot and you can decide whether to have the alterations completed by your own tailor or taken and delivered back to your home.
3. Throughout the Edit, it will be thoroughly discussed what styles, details, patterns and colours work for your body and why while also discussing which styles to avoid. You will be empowered with the knowledge to dress your body better.

4. Outfits will be professionally coordinated from your existing wardrobe and pictures will be taken for easy reference.
5. The edit will come to an end, any questions you have will be asked and answered and you will be on your way, having removed the stress from getting dressed. Any items being donated or discarded will be removed for you and if you choose to add the tailoring package, any garments that need altering will be taken to the tailor and returned at an arranged date. Keep an eye out for your digital booklet which will arrive within 7 days and outlines how to dress your body with a detailed shopping list and suggested retailers.
6. Last step. Enjoy your enhanced wardrobe and smile.

How to Prepare for your Classic Edit

- DO** pull all of your garments, accessories and outerwear out into an open area
- DO** remember to take all items out from storage so that every item is seen and nothing is missed
- DO** think in depth of what you are seeking from your wardrobe so this can be communicated
- DO** think about whether you would like to donate your discarded clothes
- DO** think about which clothes specifically you may want altered
- DON'T** throw anything away before the edit – items can be altered if they do not fit properly
- DON'T** worry about the state of your wardrobe and garments. There is no judgment

Dress Better. Feel Better. Do Better
